SUPPLY CHAIN RISK & REPUTATION

Pre-empting the press and prosecutor

Decision-makers in London grapple with complex risk exposure related to the flow of goods, information and money through vital hubs. Financial compliance, human rights obligations, community engagement and environmental risks must be factored together to build a strong social licence to operate and positive reputation.

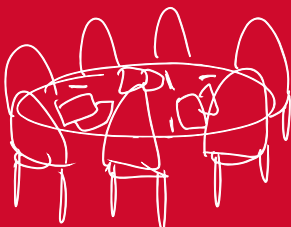

WHAT An intensive and interactive session for business leaders and decision makers from different industries and functions who are affected by the new and emerging risk landscape, and want to cut through the complexity of financial crime and human rights obligations.

WHEN Monday 30 November at 2.30pm, concluding with drinks at 5.00pm

WHERE Somerset House (Portico Rooms), Strand, London, WC2R

“ Risks are no longer isolated but inherently dynamic in nature and crossing many spheres of influence. Against this backdrop, the need to collaborate and learn from each other is clearer than ever. ”
